

AE-200E Centralised Controller

One of the most advanced energy monitoring centralised controllers available, the AE-200E allows complete control from one location.

The AE-200E is the next generation of centralised control incorporating the following elements and key features:

Key Features

- Touch-screen control of up to 50 units
- Control of M Series, Mr Slim, City Multi, CAHV and Lossnay units
- Control third party equipment ON/OFF
- Scheduling and night setback
- Web based control and monitoring of up to 50 units
- Ethernet port enables connection to BEMS interfaces
- Energy monitoring of multiple air conditioning systems
- Energy data stored on controller to enable historical trend analysis
- Graphical representation of energy use on touch screen and web pages
- Energy consumption targets on touch screen and web pages
- Downloadable energy data files (CSV)
