Technical Bulletin

| Number	P029
Subject	Panasonic – CZ-RTC5B Operation
Date	19 April 2022

Basic operation settings for the **Panasonic CZ-RTC5B Controller**

DO NOT USE ALL BUTTONS for BASIC

OPERATION

1)   **On/Off**

2)   **Navigate Left**

3)   **Navigate Right**

4)   **Navigate Up**

5)   **Navigate Down**

6)   **Enter**

The screen is split into three sections.

To navigate between these use "2 – Left" and "3 – Right".

SECTION ONE (PURPLE) – OPERATION MODE

Select using "**2 - LEFT**"

Select HEAT/COOL/FAN using "**4 – UP**" and "**5 – DOWN**" (Do not use "DRY")

SECTION TWO (GREY) – SET TEMPERATURE

Select using "**2 - LEFT**" or "**3 – RIGHT**"

Select required Temperature using "**4 – UP**" and "**5 – DOWN**"

Tip – Cooling between 21 and 23. Heating between 19 and 22°C. Anything

outside of these temperature will increase running costs.

SECTION THREE (GREEN) – FAN SPEED

Select using "**3 - RIGHT**"

Select REQUIRED FAN SPEED using "**4 – UP**" and "**5 – DOWN**"
