HI-KUMO APP

The application for programming
and controlling air conditioning from any
mobile device, Smartphone or Tablet.

With this application you can turn the air conditioning unit on or off before arriving home or even check if it has been left running and turn it off right then.

**WHAT IS NEEDED?
3 KEY STEPS**

1. Connect the Hi-Box to the router and the receiver to the air conditioning unit.

2. Download Hi-Kumo from Google Play or the App Store.

3. Configure the mobile device connection.

Ready!

COMPATIBLE WITH:

Google Play   **App Store**
